MATE

**PROFESSIONAL TEA MAKER FOR PREPARING LEAF TEAS AND HERBS**

# MATE

## EXPLORE THE WORLD OF AROMATIC TEAS

A moment with tea is a moment for yourself. Time for thoughts stimulated by the deep taste of an aromatic drink. The opportunity to stop, which releases new energy and creativity in us. MATE is the first such advanced tea machine on the market, used to brew high-quality leaf teas and herbs. Thanks to the MATE tea maker, you don't have to be a master of brewing to get a perfectly composed harmony of taste and aroma in a cup in a short time. This device has revolutionized thinking about tea and will certainly introduce a new quality to business. Increase the loyalty of your guests and the profitability of your business with excellent hospitality. Whether you offer relaxing stays, delicious meals or gourmet cakes and pastries: take your business to the next level with a unique tea.

Screen	10" touch screen

## BENEFITS

### THE BEST EXPERIENCE

An unforgettable tea moment begins long before the cup is filled. Together, we can create the best tea experience for our customers and guests, so that they enjoy it and keep going back to their daily duties. Whether they're in a rush for the train or you have plenty of time to spare: We'll help you serve your customers the most memorable tea of the day.

### OPERATE YOUR TEA MAKER WITH EASE

Thanks to intuitive user interfaces, you, your staff, your guests and customers can easily operate our tea makers. They are also easy and quick to clean and maintain. The tradition of tea brewing has been closed in a small device: MATE.

### MAXIMIZE YOUR PROFITS WITH MATE

Increase sales with consistent cup quality. A single refill of the tea maker allows you to prepare 400-500 high-quality teas. The tea-maker has been equipped with a system for recovering energy in the process of heating water, which actually reduces energy consumption. MATE dispenses the right amount of the selected blend, automatically adjusts the temperature to the selected type of tea, and shows the suggested brewing time on the display.

### WORK WITH THE MATE MANUFACTURER YOU CAN ALWAYS RELY ON

We know that running a business means no time for devices that will let you down. Our tea makers ensure operational reliability and efficiency. Service and support from a Polish manufacturer with the most experience on our market.

## HOW DOES THE TEA MAKER MATE WORK?

- The user has a choice of six different, high-quality loose leaf teas and herbs, which are displayed on the screen. By selecting the appropriate button, you can learn about their descriptions and properties.
- The scent emitter built into the MATE allows you to feel the aroma of the mixture even before confirming your choice.
- Place the cup with the filter in it under the spout. The device automatically adjusts the size of the dispensed portion and the temperature of the water to the selected type of tea.
- A message with the suggested tea brewing time is displayed on the screen. Depending on the properties we want to obtain and the type of tea, the brewing time varies between 2-10 minutes. After this time, remove the filter cartridge, throw it away and enjoy a perfectly prepared drink.

## WHERE WILL THE MATE TEA MAKER WORK BEST?

### STORES & SUPERMARKETS

Tea is increasingly becoming an alternative to the popular coffee. The speed of preparation of the perfect drink is key. While waiting for a hot dog or casserole, you can warm up, stimulate or, on the contrary, calm down. MATE allows you to sell six different types of leaf teas and herbs - this allows you to present drinks with different properties to customers.

### CAFES & RESTAURANTS

MATE for brewing leaf, fruit and herb teas is a device that fits perfectly with cafes and restaurants, as well as local or hotel gastronomy. Tea is still gaining in popularity, so the offer of tasty, perfectly prepared and top-quality teas will certainly enrich the offer of each of these places.

### OFFICES, RECREATION CENTERS

Both offices, conference facilities, recreation and SPA centers, hotels - regardless of size - perfectly match the MATE tea machines. This device will please not only the ever-growing group of tea lovers, and for typical „coffee lovers” it will be a pleasant alternative.

### FILLING STATIONS

When traveling, we often need a warming drink that will stimulate us to continue our journey - but we do not always like coffee (or simply do not want to drink it too much or at a late hour). It is also a great proposition for children. MATE is an intuitive device that can be self-service in a station coffee corner.
