Make Amazing Tea Effectively

THE TEA BREWING TRADITION CONTAINED IN A MODERN BREWER

MATE is the most technologically advanced leaf tea brewer in the world. The modern machine brews tea in accordance with the recipe, automatically adjusting the brewing temperature and time to each mix. The device enables preparation of the highest-quality leaf tea, fruit, and herbal infusions, as well as ice tea in a simple and efficient manner. MATE will fully automatise the process of preparation of tea drinks in your company. Tea brewing has never been so quick and simple.

FEATURES

INNOVATIVENESS AND STYLE

The tea brewing tradition contained in a small brewer. A single device allows brewing six high-quality leaf teas, fruit teas or herbs. The brewer automatically doses an appropriate amount of the selected mix, adjusts the water temperature to the mix type, and shows the suggested brewing time on the display.

INTUITIVE OPERATION

A single click on the 10" screen is all you have to do to prepare a perfectly composed brew. Detailed descriptions of the mixes make the selection even more simple and intuitive.

FUNCTIONALITY

Each tea cartridge has a QR code that includes information about each mix. This makes programming of the device and its functions very easy, and the brewer constantly updates the statistics.

SENSUOUSNESS

The built-in scent emitter will allow you to smell the aroma of the mix before you confirm your choice, and the transparent tea cartridge will show you the available teas and herbs.

EFFICIENCY

A single fill of the brewing machine allows preparing over 400 high-quality infusions. Moreover, during the heating process, the system recovers energy, which viably reduces energy consumption.

EASY OPERATION

A pull-out drip tray and automatic cleaning of the brewer facilitate everyday maintenance of the device. Coded cartridge data allows the system to inform about the necessity to refill the tea cartridges when they run out or expire.

WHERE WILL THE MATE AUTOMATIC BREWER WORK BEST?

MATE has been created in response to the needs of customers the tea bags can no longer satisfy. The tea brewer will prove useful when the highest quality of the product is of utmost importance and there is a need to add tea infusions to the offer.

Therefore, regardless of whether you run a coffee shop, restaurant, hotel or you need a brewing machine in your office, MATE will brew tea for you, extracting the full taste and maintaining beneficial qualities of the tea.

Thanks to this innovative device, you will be able to implement the automatic tea drinks vending model or fully automatise and improve the tea brewing process.
